UDAAN

CRESCENT INTERNATIONAL SCHOOL

CBSE Affiliated School (3430385)

Dr. MD Shamim Ahmad
(Chairman)

I am delighted to extend my heartfelt congratulations to the entire team for the successful publication of this year's e-Magazine. Your collective efforts are a testament to our unwavering commitment to providing quality education and guiding our students towards the right path.

At the core of our mission lies the belief that education is the key to unlocking one's potential and navigating life's journey with purpose and integrity. It is not merely about imparting knowledge but also about nurturing critical thinking, compassion, and a sense of responsibility.

The e-Magazine serves as a platform for our students to showcase their talents, share their perspectives, and engage in meaningful dialogue. It reflects the vibrancy and diversity of our school community and underscores our dedication to fostering creativity and intellectual curiosity.

As we celebrate this milestone, let us reaffirm our commitment to excellence in education. Let us continue to inspire and empower our students to become lifelong learners, compassionate leaders, and agents of positive change in their communities and beyond.

I extend my sincere gratitude to each and every one of you for your dedication, passion, and tireless efforts in making our school a beacon of learning and growth.

Isa Shamim
(Director)

We are thrilled to welcome you to the inaugural edition of our school's e-magazine! As a collective team at Crescent International School, it gives us immense pleasure to mark this milestone year as we celebrate 10 years of excellence since our establishment in 2014.

Over the past decade, our school has been a beacon of learning, innovation, and growth in the community. We've strived tirelessly together to uphold our commitment to providing quality education, nurturing young minds, and preparing our students for the challenges of tomorrow.

As we reflect our journey, we are filled with pride at the remarkable achievements and milestones we've reached together. From academic triumphs to artistic endeavors, from sporting victories to community service initiatives, each success story stands as a testament to the dedication and hard work of our students, staff, and parents.

But our journey doesn't end here. As we step into the next phase of our evolution, we march ahead together with a vision of a glorious future. Our dream is to continue raising the bar, aiming for nothing less than 100% quality education for every student who walks through our doors.

In the years to come, we are committed to fostering an environment that nurtures creativity, critical thinking, and compassion. We will embrace emerging technologies, adapt to changing educational paradigms, and empower our students to become lifelong learners and global citizens.

We invite you to join us on this exciting journey as we embark on the next chapter of our school's legacy. Together, let's shape a future where every child has the opportunity to excel and make a meaningful impact on the world.

Dr. Anil Kumar
(Principal)

Celebrating Creativity of the Untravelled Path

It is with immense pleasure and pride that we present to you the annual edition of our school e-magazine, "Udaan." As we leaf through its pages, we embark on a journey through the myriad of accomplishments, memorable moments, and cherished experiences that have defined our school community over the past year.

This year has been a testament to the resilience, adaptability, and unwavering spirit of our students and faculty. Despite the challenges posed by the ever-changing landscape of education, we have persevered, embracing innovation and fostering a sense of unity that has propelled us forward. Within the pages of this magazine, you will find a tapestry of stories – tales of academic excellence, artistic endeavors, athletic triumphs, and community engagement. From the classroom to the stage, from the sports field to the community outreach initiatives, each narrative is a testament to the passion, dedication, and talent that abound within our school.

As we celebrate our achievements, let us also pause to express gratitude – to our teachers, whose guidance and mentorship have shaped the minds of tomorrow; to our parents, whose unwavering support has been a cornerstone of our success; and to our students, whose boundless enthusiasm and commitment continues to inspire us all.

In the pages that follow, may you find inspiration, joy, and a renewed sense of pride in belonging to this remarkable school community. Let us cherish the memories we have created together and look forward to the adventures that await us in the year ahead.

Thank you to all who have contributed to making this year's e- magazine which is a true reflection of the spirit of our school. May it serve as a testament to the remarkable journey we have embarked upon together.

Vijeta Das
(Chief Editor)

I am extremely overwhelmed by the successful publication of our first-ever e-magazine, 'UDAAN.' I am continuously inspired by the dedication and passion displayed by our teaching staff and students. I wish to extend my heartfelt gratitude to the entire team whose collective efforts have led to this masterpiece.

I would like to extend my gratitude to our Honourable and Dynamic Chairman, who has always been an inspiration and has encouraged us to do better every time. I would also like to extend my gratitude to our Enthusiastic Director, without whose direction and guidance 'UDAAN' wouldn't have been possible. He has always been a guiding light and a hub of inspiration. A big thanks to our great leader, our Principal, for his guidance and support. His vision and commitment are invaluable. His outstanding leadership has helped to create an environment where the students have thrived so well. This has really helped us to get the best creations out of the students for this magazine.

I would also like to express my deepest appreciation to our Editorial board: Mrs. Sompa Ganguly, Mr. Lalji Tripathi, Mr. Suchand Mahato, Mr. Molay Sarkar, Miss Qumar Arsh (Std. 12), Miss Shama Tarannum (Std. 11) for their unwavering commitment to fostering creativity in our students. The masterpieces that have emerged from your guidance are a testament to your skill and dedication.

I would also like to appreciate Miss Bhabya Singh, Miss. Shifa Asif, and Mrs. Nabonita Ganguly whose contributions have not gone unnoticed. Their tireless efforts have acted as a catalyst in the making of this e-magazine. Your willingness to go the extra mile does not go unnoticed.

Lastly, I would like to thank our dedicated teachers and students who have come up with such wonderful creations in the form of write-ups, poems, stories, and arts and crafts. They have added another feather to the cap of CIS. The academic performance of the students, activities, competitions, sports, art, and craft displayed in this magazine portray the hard work and dedication of each and every teaching and non-teaching staff member of the CIS family.

In a time where the role of educators is more crucial than ever, it is heartening to see such dedication among our staff and students. Your efforts form the backbone of our school's success. Let us continue to inspire and nurture the minds of our students, shaping a brighter future for all.

Education for right path

School Captain's Thought

Qumar Arsh.
Class -12 "science"

I joined the CIS family in 2021 and it has been incredibly great I have quite evolved in these years so much that I am ready for the next level of challenges. I can say this because of the immense support from my teachers. Whatever I am today is all because of my teachers and nothing can take this credit away from them. Our respected Principal has been working hard to make us future leaders and a better human being. If we come across any hindrance in our studies or any other field we can directly seek advice on the matter from our principal, and it does not take him much time to resolve these issues. This is the reason why the school has to achieve benchmark after benchmark and needless to say it is counted as one of the best schools in Jharkhand. Even today, I remember the examination day of my 10th board when the Principal sir, and all the staff were encouraging and motivating me so that I do not get nervous. Afterward, this school has continuously provided me with opportunities to excel in every field of life. The clean and green environment is a cherry on the cake. The juniors are very loving and the premises make me feel at home. It has been a very honorable moment since I was selected as the School Captain. And I have been able to serve my school. The designation bestowed me respect and my diligence towards serving the school thrived. Our school is the best platform for the future creators of a new era. Providing opportunities to each and every student so that they can recognize their hidden talents and enhancing them is the main motive of our school. Our school has been very successful in safeguarding our future by moulding us in such a way that we can derive strength from our own selves and overcome any obstacle in life.

I hope that all of the students are as proud of our school as I am. If you dream of a better future CIS is the place that will help you reach your goal.

There couldn't have been a better school for me than this, which has greatly honored my skills and showcased my talent so well that today I feel proud of my achievements and so do my teachers and parents.

I wish for my school and all the members of CIS unbounded success and Glory.

DOWRY: A CURSE TO SOCIETY

In days of old, a cruel demand,
Dowry's weight on hopeful hand.
A price on love, a heavy toll,
A tradition dark, a bitter role.
Gold and silver, gifts so bright,
Exchanged for a bride in the dead
of night.

Her worth is measured by
material gain,
Her dreams drowned in sorrow's
rain.

But change whispers on the wind,
As voices rise, and hearts rescind.

Equality's call, a beacon's light,
Dowry's shadow fades from sight.
No more chains of wealth to bind,
Love's pure essence is
unconfined.

In hearts united, true, and free,
Dowry's curse, no longer decree.

MY ANGEL

In the dark path of my life
You fill light with your smile
I had always felt alone in the crowd
When the darkness was profound
When everyone had left my side
You held my hand completely tight
You filled me with every hope
Enabled me to resolutely cope
I didn't have any courage to dream
You enabled me to dare in a realm
Except you, I dream of none
Be with me my Almighty one
Let me thrive in walks of life
In my ordeal and all strife
You are my Angel of trust and care
I feel protected with your love and care.

I feel the difference....

I feel the difference....

Its different now

I feel differently

I must see and live differently

I must expect and befriend
differently

This 'differently' asserts my identity

my existence and my journey

The faces fade away in the light

in the receding darkness

the crimson sun is

within my hand

and my ambition conglomerates...

the milieu is different

but comfortable

foreign but intimate

the numbness is warm now and

I see you silently walking into my
life

I see you at the mountain top

ever smiling when the weather is
rough

shining as a silver line

I feel loved

I feel warm

comfortable

supported

I feel the difference

in me, myself and

eternity....

REGRETS: PARADOXES OF A STRIVING HEART

In the world's grand stage, I played my part,
A sad role, it seemed, right from the start.

Good intentions, yet failures abound,
Messing things up, with no solid ground.

Misunderstood, no one seems to see,
The depths of my heart's true empathy.

No one seems to understand the real me,
Lost in a paradox, longing to be free.

My parents hope for me, but have let them down,
In my confusion, I sometimes drown.

The real issue, it seems, resides within my core,
A series of disappointments, I can't ignore.

Yearning to be cold, a heartless wretch,
But deep inside, a caring soul fetch.

Care for sentiments, for feelings too,

A blend of regrets and dreams, that's my true view.

To conquer the world, to be among the best.

Though I have shattered me, without remorse or regret,

I rise from the ashes, stronger, I will never forget.

I will face any opponent, in my quest,

I am a warrior of courage, with dreams to pursue,

I will conquer the darkness, and my dreams will come
true.

And when all is said, and done, when the battle's
complete,

My regrets shall transform, my victory sweet

Youthful Narratives

Dr. Bhimrao Ambedkar

The creator of the Constitution, Dr. Bhimrao Ambedkar has been the saviour of the poor Dalit community, Scheduled Castes, Scheduled Tribes as well as the entire women class. He worked to provide equal rights to women as men by getting the Hindu Code Bill passed. It is the contribution of Baba Saheb that today women get equal remuneration as men and also equal rights in their ancestral property. Baba Saheb Ambedkar, through his tireless fight and struggle, paved the way for the development of the majority of the poor and deprived people of the country by giving them rights. He is also known as the creator of the Modern India. With his foresight, he established the banking system RBI. He also constructed many dams including Maithon Dam, located in Jharkhand, during his time. To make India a prosperous nation, he gave a humanitarian message to the country along with his efforts to create an egalitarian society without exploitation by eliminating all kinds of inequalities including casteism and racial discrimination prevalent in the country. He worked to establish the largest democratic system in the country by creating the Indian Constitution. Today this is the reason why every person, every party is seen remembering Baba Saheb. Also, the statue of Baba Saheb Ambedkar ji is visible and at the same time we see that on 14th April, his birthday is celebrated as the biggest festival not only in India but world wide. Truly Baba Saheb Dr. Ambedkar is a source of inspiration for all of us. Baba Saheb, who had a great and unique versatile personality, is a great pride for all of us, who can never be forgotten.

The Unrealistic Forest

Once upon a time, in a small town called Storyville, there lived a curious and adventurous girl named Aradhya. She had a wild imagination and loved to explore the world around her. One day, while wandering through the forest, she stumbled upon a hidden path that led to a magical realm. In this realm, animals could talk, trees could dance, and dreams came to life. Aradhya made friends with a wise owl, a mischievous squirrel, and a playful unicorn. Together, they embarked on thrilling adventures, solving mysteries and spreading joy wherever they went. They discovered ancient treasures, saved endangered species, and even helped a lost prince find his way home. Aradhya's stories became famous throughout the land, and people from far and wide would come to hear her tales. She became famous as the great storyteller in Storyville and Aradhya's love for storytelling brought magic and wonder to the world, inspiring others to follow their dreams and create their own extraordinary story.

Precious tree: A magical story

There was a man. He went out for a walk. He lost his way while wandering and reached a desert. He felt very thirsty while walking in the desert. Then he saw a pond. He went near the pond, but suddenly there was nothing. Then he saw an apple tree, but again there was nothing.

He was very sad. He moved forward. He was very tired. Then he saw a rabbit inside a trap. Somehow he managed to get the rabbit out of the trap. Suddenly, the rabbit spoke to him in a human voice. The man was shocked. He wondered how a rabbit could speak. The rabbit said that he was a prince. He was a very rude and arrogant prince. He was cursed by a witch and was imprisoned in the desert in the form of a rabbit.

The witch had told him that this curse would end only when he found the precious tree in the desert and apologized for his behavior. That precious tree was in the middle of the desert. The man decided to help the rabbit. That rabbit became a very good friend of the man. Together they searched for the tree. They had to walk a lot. At last, they found the tree inside a huge cave in the middle of the desert. There was also a pond near the tree. Together they searched for the tree. They had to walk a lot. At last they found the tree inside a huge cave in the middle of the desert. There was also a pond near the tree. The rabbit sat under the beautiful precious tree and apologized for his old behavior. The rabbit became the prince again. Then somehow they came out of the desert. The prince went back to his kingdom and the man went back to his home. After some days, the man received an invitation from the prince to visit his kingdom. He visited there and received a grand welcome from the entire royal family. Everyone thanked the man for his help. He became the most important friend of the prince.

Words: the sharpest weapon

It was 10 at night and Rohan was returning from his best friend's birthday party. Then he got a call from his mother. While he was talking over the phone, suddenly a car came and collided with Rohan's car. He saw that an old man was sitting in that car. Rohan started shouting at the old man, "Get out of the car. Are you blind?". The old man said, "Son, I am sorry. Something had gone into my eyes, so couldn't control the steering of the car". That was not enough for Rohan. He said, "I think you don't know who I am. The son of famous businessman Raman Chandra. Do you know how expensive this car is?". The old man kept apologizing for his mistake. Rohan was not ready to listen. He asked the old man to pay the repairing cost of the car. But, he also kept on shouting and misbehaving with the old man. Rohan had forgotten to disconnect his phone, he was on a call with his mother. His mother was listening to everything. She was very disappointed with Rohan's behavior. When he came back home, he found his mother sitting and crying in the drawing room. She told him, "Son, I have heard everything over the phone.

I'm very disappointed with your behavior and the words that you have said to the man. I know that man made a mistake, but you have no right to behave so rudely with him." She made him sit on the sofa and gave him a paper. She said, "Rohan, just imagine this paper is a person and read loudly what is written on it." Rohan started reading the paper loudly, "Why are you so fat? You are looser. You look ugly." Rohan didn't like what was written on the paper. He crumbled the paper and threw it. His mother asked, "My child, did you understand how does it feel to hear such rude words? Just imagine how others would feel if you would say such words to them". Rohan realized his mistake and how wrong was his behavior with that old man. His mother said, "So my child, never hurt someone with your words because our tongue is the sharpest weapon in the world. You still have time to go and apologize to that man."

The moral of the story is - Think twice before you speak and never hurt someone with your words.

Overcoming Addiction: Embracing Delayed Gratification

Do you find yourself reaching for your phone as soon as you wake up, only to spend the entire day glued to the screen, feeling regretful? This cycle of instant gratification often stems from underlying feelings of sadness, which we try to ignore by seeking quick fixes.

Understanding Instant vs. Delayed Gratification: Let's break it down. Instant Gratification is like reaching for your phone and scrolling through social media. It feels good momentarily, but later, you're left with regret and emptiness. On the other hand, Delayed Gratification might involve activities like reading a book or hitting the gym. They require effort upfront but bring long-lasting satisfaction. To break free, we must cut out instant gratification habits from our lives.

Recognizing Inner Conflict: Think of yourself as having two sides: the Hero and the Villain. When you try to quit addictive habits, it's like going through withdrawal. Your inner Villain will tempt you to seek instant relief through gaming or social media. But your inner Hero knows that's not the solution. Instead, it reminds you to focus on addressing the root cause of your sadness. Embracing your inner hero will be the right thing to do at that moment.

Delayed Gratification: So, how do we combat this cycle? By embracing delayed gratification habits. Instead of reaching for our phones, we might pick up a book, hit the gym, or engage in activities that nurture our minds and bodies. It's about investing in activities that bring long-term fulfillment, even if they require more effort upfront.

Conclusion:

Breaking free from addiction isn't easy, but it's possible. By prioritizing delayed gratification over instant fixes, we can overcome addiction and find lasting contentment. Remember, it's a journey, and there will be challenges along the way. But with determination and the right mindset, we can create a life filled with purpose, fulfillment, and joy.

Youthful Narratives

Asjad Fazal
Class 7 'B'

Artificial Intelligence

Movies like "I, Robot" have always compelled us to wonder that there will be a time when all robots and machines will take over the world by replacing the human race. But, do you think, machines are capable of replacing humans?

Let's find out why machines or technology are considered a threat to many. So, what is AI?

→A. I am believed to be the most futuristic system lately. It is a form of technology or a field of study that emphasizes the development of technology that can learn and become.

There are two types of AI:

- Based on functionalities
- Based on Capabilities

1. Based on functionalities

- Limited Memory
- Reactive Machines
- Theory of Mind
- Self-aware AI

I. Reactive Machines: Those machines that react to different human actions. Ex- Google Assistant, Cortana etc. This was developed in the year 1980.

II. Limited Memory: This type of AI is capable of making decisions by using historical data. This was developed in 2012.

III. Theory of Mind:- These types of AI are believed to have their own emotions, beliefs, etc. This type of AI is not developed yet

IV. Self-Aware AI: This type of AI can make its own decisions. This is the final stage of A.I. This type of AI is not developed.

BASED ON CAPABILITIES:

- Artificial Narrow Intelligence.
- Artificial General Intelligence
- Artificial Super Intelligence

1. Artificial Narrow Intelligence: These machines are capable of performing human-like actions autonomously. This was invented in the 2000s.

2. Artificial General Intelligence: This type of AI is capable of performing every task like humans or even better than humans. They can give information in a creative way like humans. It is believed that this was developed by an AI named Q*.

3. Artificial Super Intelligence: This form of AI is capable of performing every task better than humans. This is a hypothetical concept now.

→Few companies like Elon Musk's "Neural Link" are trying to develop a nano chip to increase human brain strength.

→DALL-E is a text-to-image generating program that is capable of developing extremely realistic images.

I. Active Machines: Those machines that react to different human actions. Ex- Google Assistant, Cortana etc. This was developed in the year 1980.

II. Limited Memory: This type of AI is capable of making decisions by using historical data. This was developed in 2012.

III. Theory of Mind:- These types of AI are believed to have their own emotions, beliefs, etc. This type of AI is not developed yet

IV. Self-Aware AI: This type of AI can make its own decisions. This is the final stage of A.I. This type of AI is not developed.

BASED ON CAPABILITIES: AI is generated.

★Merits and Demerits of AI are:

1. Merits of AI:

- AI makes many long processing tasks easier and cheaper.
- A person who wants to make films can show his/her creativity by using AI on a low budget.

2. Demerits of AI:

- AI can create fake realistic photos and videos that become quite problematic.
- It can promote fake commercials or monetary schemes by photoshopping videos of famous personalities.

Thus, AI is like many technologies which is both a curse and a boon at the same time. Nevertheless, it is undeniable that the most required technology in the IT sector is AI.

Youthful Narratives

Kunal Kumar
Class 9 'A'

Artificial Intelligence

Artificial intelligence is a branch of computer science that highlights intelligent technology, that works, responds, thinks, analyzes, and understands anything as a human being. This is processed by machines based on computer systems. Nowadays AI (artificial intelligence) is being used in numerous fields. There are many advantages and disadvantages of AI.

The advantages are

1. It can be used by a teacher in explaining a concept to the students.
2. It helps us in the reduction of errors while doing any work.
3. In daily applications like Alexa, Google Assistant helps humans to lead a better life at no extra cost.
4. It makes our task very easy.

And many more

Many applications of Artificial intelligence are used in agriculture, manufacturing, healthcare education, smart cities, cars, etc

Artificial intelligence is going to create a greater impact on the jobs of people.

Many people think artificial intelligence is a job killer but "AI is not a job killer, it is a job category killer

"World Economic Forum" stated in its article that by 2025, automation and a new division of labor between humans and machines will disturb 85 million jobs globally but the robot revolution will create 97 million new jobs.

"AI will not take your job but a person knowing AI will get the job. This is why we need to adopt artificial intelligence, According to 2022 literacy rate of India is 75%. 23% of Indians don't know how to read and write. According to NSSO(National Sample Survey Office) 60% of Indians between the ages of 15 to 30 don't know how to use a computer, in this case it is going to be difficult for Indians to adopt AI so they will lag behind. In the upcoming years, all the work is going to be based on AI, so if you want a job in the upcoming years you must have basic knowledge about using the artificial intelligence. In politics it is probably the most dangerous thing, there are many such cases in which political parties used AI in a negative way for political propoganda. Many scammers are using AI for doing scams. So to be safe we should be aware of AI.

Hence, there are both positive and negative impacts of AI.

Rishtey

हर पल बदलते इस दौर में,
कौन अपना कौन पराया है?
रिश्तों में बंधे होकर भी,
किसने कितना निभाया है?
मैं सोचूं तो कितना हसीन है,
वो चेहरा जो सभी ने दिखाया है
कई रिश्ते खून से प्यारे हैं,
तो कोई सगा भी पराया है।।
क्या कसूर है मासूमों का?
जो दिल से सभी को अपनाते हैं,
ये कूबुद्धि है अपनो की
जो अपनो से दूर कराया हैं।।
खो गए संसार में प्रेम के रिश्ते
चल संग में साथ निभाते हैं,
उनसे भी प्रेम बांटते है चल
जिसने परिवार सजाया है।।

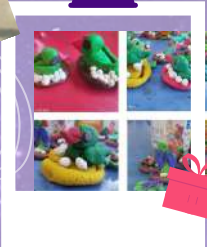

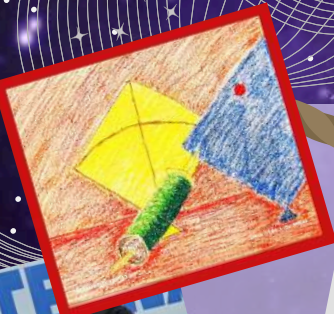

Qumar Arsh.
Class -12 "science"

Maa

जो मैं हूं तो वो है,
मेरा है अगर कोई वजूद...
तो उसकी भी वजह,
मेरी मां ही तो है।।
वो सजाती है मुझमें,
अपने सभी सपनों को
मेरी हँसी जो खिल कर आती है,
उसके खिलने की वजह वो है।।
वो अपना सब मुझपे लुटाती है,
हर गम, हर आंसू पी जाती है।
लौटने को उसकी हंसी,
मेरे परिश्रम की वजह वो है।।

Teacher's Precious Thoughts

Mr. Soumen Chatterjee

Echoes of Crescent: A journey of learning and light.

In Crescent's halls, where learning takes flight,
Knowledge blossoms bathed in morning light.
With eager hearts and dreams unfurled,
Young minds take flight at Crescent International World.

Guides stand firm, a gentle hand,
Within these walls, in Crescent they stand.
Nurturing souls, igniting sparks,
Curious minds leave their shining marks.

Each lesson whispers a cherished lore,
Of battles won, and triumphs bore.
Here, dreams ascend, embraced by light,
Chasing shadows of the darkest night.

Laughter dances through every hall,
Friendship's tapestry adorns them all.
A spirit strong, forever true,
Crescent International's heart shines anew.

So raise a voice, to this beacon bold,
Our guiding star, a story untold.
In learning's path, hand in hand we roam,
Forever bound to Crescent's cherished home.

Mrs. Sompaa Ganguly

Happy Teachers Make Happy Classroom.

"A harmonious blend of joy and purpose permeates the very air of a classroom where the guiding light is a happy teacher. Their infectious enthusiasm ignites a flame of curiosity in their students, fostering an environment where learning becomes an adventure rather than a chore. Each lesson is infused with passion, transforming mundane subjects into captivating journeys of discovery. In this sanctuary of knowledge, laughter dances freely, and challenges are embraced as opportunities for growth. The happy teacher is not merely an educator but a maestro orchestrating symphonies of inspiration, nurturing minds and souls alike, laying the foundation for a brighter tomorrow."

Ms. Shifa Ashif

Meet Up in The Stars

You feel like fireflies in a glass jar
Rainbow after the rain
Smile of a baby
The temple's bells
A remedy over wounds
The unknown sounds
The clouds I chase
For my own peace
A bliss which can even cure scars
And I know we'll even meet up in the stars
We'll meet up in the stars.....

Teacher's Precious Thoughts

**Mr. Rakesh Kumar
Mandal**

MATHEMATICS

Without mathematics, our life would be like narrating a story without a voice. Mathematics teaches us to live a better life. Mathematics is used in every field in our daily life like IT field, statistics, accounting algebra, geometry etc. It is used for calculation and in various types of astronomical discoveries. Mathematics is said to be the life of business and the originator of science. In real life, it is used everywhere like our house, market, shop, buying and selling, income and expenditure, tax, post office, bank interest, account of household expenses, and engineering. Is also used in a country's economy, we are all using mathematics in some form or another everywhere. The existence of mathematics lies not only in human life but in the entire process of the universe. It plays a very important role in understanding oceanography by simulating various aspects of nature with the help of graphs and figures. We obtain information hidden in the womb of the ocean. Without mathematics the whole world would remain ignorant of the meaning of life, medical science, and astronautics and all scientific agencies would become extinct. We are taught addition, subtraction, multiplication, and division in primary classes so that we can use the initial concept to learn new concepts. Now we have concluded that without mathematics the wheel of our life cannot move forward and we cannot develop completely, that is, without mathematics, life is zero.

**Mr. Arbindu
Rewani**

WORLD OF KNOWLEDGE

The world of knowledge is a sacred shrine where keys line up, Ctrl+C of knowledge. To navigate through each digital door, use Shift+Tab; to multitask and explore, use Alt+Tab. Ctrl+P prints dreams onto white paper, and Ctrl+V pastes thoughts like a bright beacon. F5 to restart or refresh; Ctrl+Z to undo recent or past errors. We search and locate in the enormous reaches of the digital mind by pressing Ctrl+F. Ctrl+S reserves wisdom for another day, and Ctrl+X navigates through the jumbled chaos. Ctrl+O calls files to your side, and Ctrl+T opens tabs across the entire window. Enter to carry out, to make it so; exit to flee, to release it.

Teacher's Precious Thoughts

जिंदगी

**Ms. Shaima
Parveen**

जिंदगी की कविता लिखू,
दिल से जो निकलती है।
रंगीन सपनों की छांव में,
खुशियों जो भरती है।

दर्द की गहराइयों में भी,
मुस्कान को ढूँढती है।
हंसना, रोना, जीना, मरना,
जिंदगी को समझाती है।

हर पल की कीमत समझकर,
जिंदगी को जीना सिखाइये।
हर मुश्किल का सामना करके,
मंजिल तक पहुँचाइये।

जब भी लगे हार गए हो,
रस्ते पे चलते-चलते।
यादें भी दर्द से भर गई हो,
और सपने भी टूट गये हो।

तो याद रखो, रात से पहले ही,
सुबह की रोशनी का वादा है।
हर कड़ी जिंदगी का जोड़ देखना,
रंग बिरंगी पलों का सफर देखना।

हर मुस्कुराहट, हर आंसू,
जिंदगी का एक नया मंज़र देखना।
हर मुश्किल का एक राज़ समझना,
उसमें छुपी खुशियां ढूँढना ।

जिंदगी की कविता लिखू,
हर लफ़्ज़ दिल से आये।
खुशियों की लहरों में बहकर,
जीवन को रंगीन बनाए !

हाय!मेरे विश्वास

**Mr. Lalji
Tripathi**

बचपन से सुनते और पढ़ते रहा हूँ कि विश्वास मानव चरित्र का सकारात्मक भाव है। मेरी माँ, मेरे शिक्षक, मेरे मित्र सभी मुझसे कहते आ रहे हैं कि हमेशा सकारात्मक बने रहो। बी पॉजीटिव। अर्थात सब पर विश्वास करें। अविश्वास जैसे नकारात्मक भावना को जीवन में पालकर न रखें। अविश्वास मनुष्य का अवगुण है। दोष है। मानव धरती पर गुण कमाने आया है न कि अवगुण। अर्थात हर परिस्थिति में विश्वास बनाए रखें। विश्वास के साथ जीवन में आगे बढ़ें। विश्वास भरे परिवार में एवं समाज में रहकर मैं भी इस विश्वास जैसे दुर्लभ तत्व का कायल हो गया हूँ। तुलसीदास की यह पंक्ति कि "होइहि सोइ जो राम रचि राखा, को करि तर्क बढावे

साखा।" ने मेरे विश्वास जैसे सकारात्मक सोच को और अधिक मजबूती देते रहा है अतः गुण पाने की लालसा ने मुझे अति विश्वासी बना दिया। मैं भूल गया कि अति सर्वत्र वर्जित है। विश्वास करने के लिए मुझे किसी के बारे में अधिक जानने की जरूरत नहीं होती। किसी की थोड़ीसी मुस्कान, किसी की मीठी वाणी ही इसके लिए काफी है। मधुर बोलकर, अपनी सरलता दिखा कर, अपनी छोटी सी नजर का जादू चलाकर मुझे कोई भी आसानी से ठग सकता है। इस तरह की कला रखने वालों के मैं अक्सर शिकार बनते रहा हूँ क्योंकि विश्वास जैसे सकारात्मक तत्व का तो मैं कायल हूँ। मेरे आस पास रहने वाले मेरी इस सरलता का फायदा उठाते रहते हैं। वे अपने उल्लू सीधा करने के लिए मेरी इस सकारात्मकता का आसानी से उपयोग दुरुपयोग करते रहते हैं।

अपने अब तक के जीवन में अनेक बार यह महसूस करते रहा हूँ कि मैं आसानी से ठगने वाले के उपरोक्त अदाओं का शिकार बन जाता हूँ। यह विश्वास कुछ के जिन में अवश्य उत्सर्ग लाता ही होगा परन्तु कुछ को अपना शिकार भी बनाते रहता है।

इसी विश्वास को अपनी ताकत बनाकर साइबर अपराधी कतनों को लाखों के चूना लगाते रहते हैं। अपनी मीठी बातों से साथे साथे, भोले भाले दिल वालों के अंदर इस विश्वास को जगाकर कामयाबी हासिल कर लेते हैं। मैं भी अपनी इस कमजोरी का शिकार साइबर अपराधियों के हाथों बना हूँ। साइबर अपराधी अपनी मधुर वाणी का जादू चलाकर मेरे विश्वास जैसे गुण का फायदा उठाते हुए मुझे लाखों का चूना लगा दिया।

अब अक्सर मेरी पत्नी का मेरे पर यह आरोप रहता है कि आप हर किसी पर बहुत जल्दी विश्वास कर लेते हैं। तब से मैं भी यह सोचने को बाध्य हो गया हूँ कि विश्वास मानव स्वभाव का सकारात्मक पहलू कैसे हो सकता? जब तक अपना बनकर अपने के अन्दर विश्वास जगाकर इस सकारात्मक भाव को हथियार बनाकर अपना उल्लू सीधा करने का खेल खेला जाता रहेगा यह किसी के लिए गुण नहीं दोष ही रहेगा। इसमें बड़े धोखे हैं। जरा सम्भल के चलना।

History Of CIS

CRESCENT INTERNATIONAL SCHOOL, DHANBAD
CBSE Affiliated Senior Secondary School

ON THE 9TH FOUNDATION DAY OF OUR SCHOOL

Dear Members of Crescent International School,

Today, on the occasion of our Foundation Day, we celebrate a remarkable journey that commenced on this very day in 2014. Nine years ago, we set out on a mission to provide quality education, guided by our motto, "Education for the right path." Under the visionary leadership of our Chairman, who envisions a future where our children are educated in the truest sense, we have achieved numerous milestones that fill us with pride.

Let's take a moment to reflect on some of these achievements:

1. In the year 2014, Crescent International School was established, marking the start of our educational journey.
2. The first academic session commenced in 2015-16, with 289 eager students stepping through our doors.
3. In 2017, we received ISO certification, a testament to our commitment to quality education.
4. The year 2018-19 brought us recognition as one of the top 500 schools in India, and we were honoured with the School Excellence Award.
5. In 2019, we earned the prestigious title of "FIT INDIA SCHOOL" from the Government of India.
6. Our commitment to excellence was further acknowledged when we were awarded the title of "Day-Boarding School of the Year 2019" by INCUBATION CENTRE OF IIT PATNA.
7. In the same year, we obtained affiliation up to the 10th standard.
8. 2021 was a landmark year when we expanded our affiliations to the Senior Secondary level.
9. Our esteemed School Principal, Dr. Anil Kumar, was recognized as the "Best Principal of the Year 2022" by the Indian Education Award.
10. Our students have excelled academically, with Sourav Mandal securing a place in IIT MUMBAI and Rahul Kumar Pandit joining NIIT.
11. In 2023, we proudly received accreditation from NIOS up to the Senior Secondary level.
12. Just recently, on the 4th of October, 2023, our students showcased their talents and commitment to social issues in the 26th Child Rights Congress competition. We are delighted to share that Master Prakash Kumar (STD IX) and Md Asjad Fazal (STD 7) has been selected to represent CIS at the STATE LEVEL Competition with the theme, "Right to Environment Protection," scheduled at DAV, Pundang, Ranchi, from the 24th to the 26th of November. Last year, Miss Anam Nayab also represented CIS at the state level, further highlighting the calibre of our students.

We extend our heartfelt congratulations to the entire CIS community for contributing to our journey of success. Together, we have built a school that is not just an educational institution but a place that nurtures young minds and prepares them for a bright future.

As we move forward, let us continue to strive for excellence, guided by our motto, "Education for the right path." We have achieved much, and with your continued support, there are no limits to what we can accomplish in the future.

Warm regards,

Isa Shamim

Director
